and Brief Descriptions

This is one of the finest and most comprehensive collections of fine Irises ever offered for sale. Most of the rare foreign varieties of recent introduction are here offered at less than the cost of importing them. The varieties not rated have been originated since the American Iris Society made their official ratings in 1921. Notice the uniformly high ratings and the absence of poorly rated varieties. There is not a poor one in the lot. Those varieties not quoted are on exhibition, but are mostly not for sale this year. Some of them may be quoted on request.

Luther Burbank says:—"No other so thoroughly practical, well edited and generally interesting."

THE FLOWER GROWER is all that the name implies *AND MORE*. It tells all about flowers and it tells many other things of interest to those who aspire to better living conditions and more beautiful surroundings. Teaches balanced activities and a sane perspective.

Tells about the Rose, Dahlia, Iris, Peony, Gladiolus, wild flowers and other flowers. Questions and Answers; Odds and Ends; Musings; Timely Suggestions; Wayside Ramblings; Our Birds; and many other interesting and helpful things. THE FLOWER GROWER has an editorial department and an editorial policy, which is strangely lacking in most magazines.

Up to sixty-eight 9 x 12 pages. MORE floral facts and information than any other magazine.

Your reading of twelve issues of THE FLOWER GROWER will convince you that you cannot be without it and I will surely have you as a permanent reader.

To send your subscription: Write your name and address below and attach remittance in stamps, currency, check, draft or money order, and mail to MADISON COOPER, Editor and Publisher, Calcium, N.Y.
